Supporting care everywhere

Enhance personal interaction • Expand reach • Improve operational efficiency
Flexible mounting • Sit-stand mobility • Charging systems

Quality products for every area in the facility – and beyond
Serving the healthcare industry for more than 20 years

With more than 30 years of designing ergonomic solutions for computer users worldwide – and 20 years specifically in healthcare – Ergotron is uniquely qualified to help your entire facility enhance personal interaction, expand the reach of care and improve operational efficiency.

Innovations for home and work

Like other members of the Nortek family, Ergotron is driven by constant innovation with a singular, unified purpose: to make our customers’ lives better.

Enhance personal interaction, expand the reach of care and improve operational efficiency

**StyleView® Carts**
- Designed for nurses and personalized to enhance workflow and caregiving
- Choices for mounting displays: LCD arms and pivots, secure laptop, and single or dual displays
- Unsurpassed ergonomics whether sitting, standing or maneuvering
- Carts evolve as your needs change – several accessories are available to improve productivity
- Carts and power systems fully certified to UL 60601-1

**StyleView Telehealth Carts**
- Various cart configurations are available for both telepresence and telemedicine solutions
- Open architecture – easy to integrate and implement
- Our integration specialists can help you determine the best solution to support your objectives and fit within your budget

**Point-of-Care Wall Mount Products**
- Enhances personal interaction between caregivers, their patients and patient data
- Ergonomic designs and added features provide ease of motion and proper positioning for optimal workplace comfort
- Choose from a wide range of wall mount products to meet various user, budgetary and space requirements

**Charging Systems**
- Charge, sync and/or secure multiple mobile devices
- Available as carts, wall mounts or desktop stations
- Choose from universal, open-architecture designs or products made for Apple®
- Certified for safety
- Lightweight and agile designs

**Sit-Stand Workstations**
- Promotes a healthier way to work with ergonomic comfort and sit-stand mobility
- Choose from desks, mobile workstations, wall mount and desk mounts
- Additional accessories also available to improve productivity and comfort

**Service and Product Support Programs**
- Expect a superior customer experience
- Quality products are backed by specially trained support professionals and optional extended service programs
- Extended Global Service Programs protect your investment and ensure optimal product performance
- Customer Care includes live support via phone, chat and email
Caregivers, meet your StyleView® Cart

Choose the StyleView medical cart that best meets your caregiving needs, style and workflow. Ergotron offers the broadest range of options so you can experience a super functional, fully adjustable medical cart.

Our market-leading, 6th-generation StyleView Carts are designed to include all the features that caregivers have asked for, with all the open architecture and quality construction that IT departments require.

Added drawers

Point-of-care carts facilitate documentation, access to medical records and medication delivery anywhere in the facility.
Mobility, proper ergonomics and the ability to sit and stand throughout long shifts lets caregivers experience a much healthier way to work – with greater comfort and less fatigue.

Your workflow.
Your cart.
Your way.

Light-duty point-of-care carts also are ideal for tablets or laptop use anywhere in the facility.

Telehealth carts are designed for telemedicine and videoconferencing.

StyleView Carts

Determine your application:
- **Point-of-Care Carts** facilitate access to medical records and provide medication delivery anywhere in the facility
- **Telehealth Carts** designed for telemedicine and videoconferencing anywhere in the facility

Determine the primary use:
- Access to medical records and the delivery of medication
- Access to medical records and medication delivery/management with controlled access
- Mobile deployment of tablets or laptops

Choose display mount type: LCD Arm, LCD Pivot, Laptop, and Tablets & Microsoft Surface

Choose powered, non-powered or add-on power upgrades:
- Lithium Iron Phosphate (LiFe), Sealed Lead Acid (SLA), non-powered, power upgrade options (see page 10)

Choose drawers, storage & accessories: Drawers, Bins, Sani-Wipes Holder, Scanner Shelf and more

Add a service program: Extended Global Service Programs protect your investment, ensure optimal product performance and can provide additional support and benefits, such as:
- Site readiness
- Fast, efficient product installation and integration
- Preventive maintenance and extended warranties
- Improved asset management
- Enhanced in-house product expertise
- Equipment audit and health assessment
- Next-Business-Day service contracts
- Annual contracts and planned services
- Product recycling

Need help determining which StyleView Cart is right for you? Use our helpful Finder Tool at [styleview.ergotron.com/finder](http://styleview.ergotron.com/finder)

Or consult with an Ergotron healthcare expert

For display compatibility, visit ergotron.com
Choose from multiple drawer options

One drawer:
1 Primary Drawer, single

Two drawers:
1 Primary Drawer, single
1 Supplemental, single

Four drawers:
1 Primary Drawer, triple
1 Supplemental, single

Six drawers:
1 Primary Drawer, triple
1 Supplemental, single

Nine drawers:
1 Primary Drawer, triple
2 Supplemental, triple

Three drawers:
1 Primary Drawers, single
2 Supplemental, single

Two drawers:
1 Primary Drawers, double

One tall drawer:
1 Primary Drawers, single tall

Two tall drawers:
1 Primary Drawer, double tall

Fifteen drawers:
1 Primary Drawer, triple
4 Supplemental, triple

Choose from manual key lock drawers or electronic locking drawer systems (with PINs) which enable secure and efficient management of non-controlled medication, reducing the chance for errors. Also supports “Pharmacy mode,” allowing all drawers to be unlocked simultaneously.

Why choose a StyleView® powered with Lithium Iron Phosphate (LiFe)?

Certified. Lightweight. Ultrafast recharge. Long battery LiFe.

Extremely lightweight and adjustable
The LiFe power system and compact, lightweight base combine with StyleView’s ergonomic adjustability to decrease caregiver fatigue and enhance overall wellness and productivity

Ultrafast recharge ensures caregiver and cart uptime
A full recharge from full discharge can be completed in around two hours for typical loads.

Long battery ‘LiFe’ minimizes time and cost for maintenance and replacement
Proven to achieve thousands of cycles per lifetime and to last several years in a typical healthcare setting

Safe and certified
For patient and caregiver safety, the FULL cart and power system are certified to UL 60601-1

Includes FREE StyleLink with enterprise capabilities
Install, access and manage your StyleView power systems from a remote location across WAN, LAN or VPN

Proven safe battery chemistry
Through extensive testing, Lithium Iron Phosphate is proven to be a very safe battery chemistry

Free, industry-leading StyleLink software with enterprise capabilities
StyleLink’s three-part software package (Enterprise, Client, Graphing Tool) offers broad system and platform compatibility for global healthcare customers deploying Ergotron StyleView Carts with power.

Extend Asset Life Cycle
Optimizes balance between runtime and cycle life

Proactive Power System Management
Eliminate surprises through use of diagnostic tools, simplifying power system management and reducing time required to fix problems

Reduce Total Cost of Ownership
Reduce costs for maintenance; eliminate need for expensive onsite technical support by leveraging diagnostic capabilities. Simply email StyleLink’s history data file to Ergotron Tech Support and they will help troubleshoot power system performance issues

Enterprise Capabilities
Remote enterprise monitor: access your carts across WAN, LAN or VPN to get real-time information

Advanced Drawer Management
Each drawer individually controlled with PIN; program locally or remotely via enterprise
Add dependable power to non-powered StyleView® Carts*

Enhancing productivity in healthcare environments is our goal. Ergotron partners with three manufacturers to offer add-on power options for existing non-powered StyleView carts. Choose the product that best fits your workflow and budgetary requirements.

PREMIUM
SV LiFe Power Upgrade System
- Manufactured by Scott Clark
- High capacity, flexible, portable
- Ultra-fast, built-in charging on board
- Powers everything on the cart
- Lithium-Iron Phosphate is the safest battery chemistry
- State-of-charge LED indicators
- Availability:
  - US/CA/MX 97-837
  - UK/HK/MY/SG 97-893
  - EU 97-894
  - Saudi/UK 97-895
  - Saudi/EU 97-896

Purchasing an Ergotron powered cart is the most cost-effective solution and instantly reduces the total cost of ownership.

MID-LEVEL
SV Hot Swap Power System
- Manufactured by Anton Bauer
- Charges battery on or off the cart
- Powers everything on the cart
- Wall cabinet charger uses UV LED to disinfect batteries
- Charge up to three batteries
- Includes Battery Pain Scale™
- Available NORTH AMERICA only:
  - Battery 97-925/Charging Cabinet 97-930
  - Interface 97-931/Power Supply 97-932

ENTRY-LEVEL
SV DC Power System
- Manufactured by Amstron
- Low-cost DC power
- Small form factor
- On-board, all-in-one charger
- Selectable output voltage
- Mounts on the front or back
- Available WORLDWIDE:
  - Laptop version 97-943
  - LCD+CPU version 97-942
  - Remote User Interface 97-953
  - (Country-specific power cords sold separately)

Secure medication delivery with StyleView® Transfer Cart

A multi-purpose healthcare cart designed to streamline caregiver workflow and complement StyleView carts. From pharmacy to patient floor, the StyleView Transfer Cart securely stores, transports and dispenses medications and other supplies. (24-421-062)

Key features include:
- Holds up to 120 small or 40 large drawers, accessible from either side of cart
- Supports 20 or more StyleView carts depending on drawer configuration
- 36 shelves are removeable or repositionable to accommodate envelope drawer or taller items
- Top cover supports 25 lbs (11.3 kg) and its 41”-high (105 cm) surface is a convenient operational height when standing; raised edges prevent spills
- Secure: doors unlock electronically using programmable 5-digit PIN or via manual lock
- Premium, 5” (13 cm) swiveling casters move the cart with ease over thresholds and any floor type
- Includes a scanner holder and can support an Ergotron LX LCD Arm or laptop tray
- Smooth exterior surface makes cleaning easy

* If you need a cart with a built-in power system, choose a LiFe-powered or SLA-powered StyleView Cart. Purchasing an Ergotron powered cart is the most cost-effective solution and instantly reduces the total cost of ownership.
StyleView® 10 (SV10) carts let caregivers easily move their mobile devices to the point of need. Super petite, lightweight and agile, SV10 carts glide effortlessly across various flooring types and fit nicely into small work areas, like exam rooms and offices.

Designed with ergonomics in mind, carts offer 15” (38 cm) of effortless vertical height adjustment so users can choose to sit or stand as they work. Keyboards and displays can be properly positioned for comfortable data entry and screen viewing. Accessories can easily be added to enhance functionality.

Healthcare services delivered at anytime, from anywhere

- Expands access by allowing physicians and health facilities to extend their reach without geographic or socioeconomic limitations
- Brings specialization to rural, remote, underserved and/or senior populations
- Manage costs – can provide consistent, lower-cost care to patients with chronic diseases
- Promotes sharing of staff, reduces travel
- Increases patient satisfaction and trust because it may help to lower stress, replace travel, reduce costs of care and deliver remote expertise

Easy and affordable telehealth options from Ergotron Healthcare

Learn more about expanding the reach of care at healthcare.ergotron.com
StyleView® Telemedicine Carts

StyleView Telemedicine Carts are specifically designed and configured to support the increasing demands of telehealth – the use of telecommunication technologies for remote patient care. Telemedicine can expand care by enabling connection and collaboration with specialists or teams, regardless of their physical locations.

Open architecture
Allows for easy integration of standard equipment

Lots of connectivity
A total of 5 USB ports are integrated into cart (3 within bin and 2 on the back side); 1 ethernet port is available on the side of the head unit

Everything you need
Camera and Codec/CPU support, secure and ample storage, connectivity and power outlets

StyleView quality
Hospital-grade construction, ergonomic and secure

Worldwide availability

Safety certified
Entire cart and power system is certified to UL/EN/IEC 60601-1 and CAN/CSA C22.2 No. 601.1 M90. (Other country-specific certifications currently pending)

Visit ergotron.com for all StyleView Telemedicine Carts, configurations, accessories and country-specific part numbers
StyleView® Telepresence Carts
(North America only)

Telepresence allows medical professionals to conduct ‘virtual’ patient appointments easily and cost-effectively. This capability is particularly effective for patients with physical limitations, chronic illnesses and/or transportation issues, so it’s ideal for in-home care or care facilities.

Transform an existing StyleView Cart® into a low-cost telepresence cart
(Available worldwide)

Telepresence Kits let you easily convert an existing StyleView cart* for use in telepresence applications—combining the power of videoconferencing with the point-of-care benefits of StyleView. Upgrade kits include a large storage drawer (with divider and keys), travel stop, camera shelf for video/web camera, and a Codec/CPU holder. Then choose from single, dual or back-to-back monitor options.

StyleView Telepresence Upgrade Kits:
97-870 SINGLE MONITOR
97-871 DUAL MONITOR
97-872 BACK-TO-BACK MONITOR
* Cart requirements: Non-powered / LCD pivot with 1 drawer / SV43-1310-0
SLA-battery powered / LCD pivot with 1 drawer / SV44-1311-1

Visit ergotron.com for complete information on LX Wall Mount Systems.

LX Sit-Stand Wall Mount Highlights

- Ultimate flexibility of monitor and keyboard positioning enhances personal interaction between the caregiver, patient and the patient’s data.
- 20” (51 cm) height range allows users to switch between sitting and standing positions for a healthier way to work.
- Ergonomic back-tilt keyboard tray ensures wrists remain in a neutral position to increase comfort and help avoid repetitive-stress injuries.
- Keyboard platform is very stable for extensive data entry and tested to be 3X more rigid than other keyboard arms.
- Rotation Stop on wall mount base limits turn of extension base connection to 180°, preventing extension from contacting wall.
- Secure installation – locking connections between arm, extension and base.

Sit-stand ergonomics – secure, compact and enclosed

Perfect for space-constrained patient rooms

StyleView Enclosures provide a smooth vertical height adjustment and folds up into a slim, compact unit when not in use.

Sit-stand ergonomics

Move from a sitting to a standing position whenever you want. True ergonomic designs provide a healthier, more comfortable way to work.

Extreme security and stability

A keyless locking mechanism protects patient data for compliance with privacy requirements and a unique cable management system conceals and organizes the cords, making cleaning a snap! Its stable, slide-out keyboard can support extensive data entry.

Neo-Flex Dual Monitor Wall Mount and Keyboard Wall Mount

Maximize your space! This low-profile system enhances PACS implementation by providing convenient access to digital records. Tilting dual monitors reduce glare and improve sight lines. The wall-mounted keyboard tray lets you enter data at the point of care, then folds up flat (just 5”/13 cm from wall) when not in use.

Neo-Flex Dual Monitor Wall Mount
28-514-800 (grey & black)

Neo-Flex Keyboard Wall Mount
45-403-062 (grey)

Neo-Flex Wall Mount Lift

Add greater range of movement to your LCD display: raise or lower it 5”, pan, tilt and rotate 90°. Its slim profile makes it perfect for areas where space is at a premium.

200 Series Combo Arm

Attach your LCD and keyboard to free up space. This wall unit solution features 3-point telescoping motion, providing greater reach to bring the system to where it is needed.

Worksurface with pull-out keyboard tray facilitates caregiver workflow

1. Patented Constant Force™ lift-and-pivot motion technology provides premium 25” (63.5 cm) LCD height adjustment, portrait-to-landscape rotation and 30° tilt
2. Durable, easy-to-clean exterior composed of aluminum and high-grade plastic
3. Integrated mouse and barcode scanner holder provide easy access
4. Fold-down worksurface/keyboard tray to support workflow needs. Worksurface is 22.75”W x 10.6”D (57.8 x 26.9 cm). Keyboard tray is 18.6”W x 9”D (47.2 x 22.8 cm)
5. Ergonomic back-tilt keyboard tray ensures wrists remain in a neutral position during data entry. Includes slide-out mouse tray

For compatibility visit ergotron.com
6. Clean, concealed and neat routing of cables through the expansive cable management system

7. Extend LCD and keyboard up to 43” (109 cm) from wall; fold equipment back out of the way when not in use. With worksurface in storage position, system depth is as little as 8” (20.3 cm). With keyboard in storage position, system depth is as little as 12” (30.5 cm)

8. Optional Extender Arm increases range of motion for even greater reach
Compact ergonomics; extremely low profile

Ideal for patient rooms and high-traffic areas, StyleView® Vertical Lifts give caregivers ergonomic comfort in a compact, low-profile wall mounted workstation. In a patient room setting, the pan of the keyboard and display promotes interaction, and the slide-out keyboard tray provides caregiver with comfortable data entry. Units fold up to as little as 4” (10.2 cm) deep when not in use.

Sit-Stand Vertical Lifts allow users to adjust between sitting and standing working heights. The entire system – monitor, keyboard and mouse – moves vertically 18” (46 cm) with a single, smooth motion to accommodate the heights of multiple users.

Specialty healthcare products from Anthro

Ergotron offers a wide variety of specialty healthcare products and solutions – through our Anthro brand – with all the essential features you want and need.

**Radiology & Imaging Tables** include advanced technology for effective image reading and ergonomic features for multiple users’ comfort. Available as fixed height or height-adjustable models.

**Zido Carts** designed for EKG, Ultrasound, EHR and Phlebotomy supplies are compact and easy to steer. They carry all relevant supplies right to the patient and include plenty of built-in storage.

**Wide range of desks, carts and trolleys** are offered to serve myriad needs in various healthcare environments.

The broadest and best selection of charging systems!

Ergotron and Anthro Corporation have teamed up to offer the broadest and best selection of charging systems in the industry!

Manufactured in the USA, Anthro-DNA YES® charging carts and wall cabinets are a perfect complement to existing Ergotron charging system products.

Ergotron and Anthro-DNA strengths include:

- Fastest charging times with PowerShuttle® technology
- Universal designs fit all devices: tablets, laptops, Chromebooks and more
- Sleek, compact designs; carts have small footprints and easy maneuverability
- Durable, solid construction with security and separate IT locking areas
- Managed & unmanaged versions
- UL or ETL certified and tested for safety to UL 60950 standard

The quickest charge for your tablets and laptops

Ergotron PowerShuttle® technology is a patented, embedded control system that monitors incoming current from the wall outlet and distributes it to microprocessor-controlled outlets inside the charging cart to quickly, efficiently and safely charge your devices.

- PowerShuttle charges up to 40% faster than competitors’ round-robin charging systems.
- Doesn’t require manually switching between outlets or adjusting timers.
- Limits inrush current — the instantaneous current draw when you first power on.
- Prevents nuisance tripping of site circuit breakers and electromagnetic interference with other devices.
- Keeps you safe from arc at the plug and hazardous touch currents.

Why should you care about safety certification for charging systems: the risks of using non-certified products

1. Critical materials are not fire resistant – This is a fire hazard if a battery or electrical fault occurs
2. Electrical hazards are not physically enclosed – Shock hazards exist if energized circuitry can potentially be touched either directly or if exposed metal is not safely grounded or properly isolated. Fire hazards can exist if the enclosure can potentially let out flames or molten metal if an electrical fault occurs inside of the enclosure
3. Mechanical hazards are not mitigated – If not properly tested and certified, pinch points, tip, crush or cut, sharp edges, and moving parts can injure users
4. Equipment ratings must meet National Electrical Code – Non-evaluated systems may exceed allowable load limits causing electrical arcing, facility problems and/or interaction and interference with other equipment
5. No manufacturing factory quality surveillance – Product quality and consistency must be managed and ensured

Safety Certification
UL 60950 Safety of Information Technology Equipment, CAN/CSA C22.2 No. 60950
UL 1667 Tall Institutional Carts for use with Audio, Video and Television Type Equipment
ICES-003 Issue 4, Class A
FCC Part 15 Class A
Country-specific certification as required
RoHS and Reach compliant material used

How PowerShuttle works

1. A sensor constantly measures the current coming into the cart from the wall outlet. This helps determine the geographic region where you are (various current limits are used throughout the world) and applies the current limit that is specific to your region.

2. PowerShuttle’s inrush protection uses microprocessor controls to gradually increase current to the devices as the cart is initially switched on or plugged in, to prevent spikes.

3. As devices charge, PowerShuttle stays vigilant with a sensor continuously monitoring the amount of current from the wall outlet into the cart.

4. If the current from the wall outlet is about to exceed the cart’s regional limit, PowerShuttle immediately divides the device outlets into groups. This “measure and divide” process (steps 3 and 4) will repeat until all outlets can be on at the same time.

5. As devices reach full charge, they’ll draw less and less current until all device outlets can be “on” to minimize charge time.

Sit less. Stand more. Start now!
Take a stand against illnesses linked to prolonged sitting

For more than three decades, Ergotron has designed ergonomic workstations to make computing more comfortable and better for you. Our extensive line of sit-stand workstations and desks gives computer users a much healthier and more productive way to work.

Sit-stand workstations are:
- FLEXIBLE – a solution for every computer user and every computing configuration
- ERGONOMIC – effortless height adjustability for sit-stand comfort; accessories also available
- AFFORDABLE – many economical ways to fight “sitting disease”

WorkFit-T/-TL Sit-Stand Desktop Workstation
Invigorate your work day with this ultra simple and flexible workstation!
- Stable workstation sits right on top of most surfaces 24” (61 cm) deep or larger; no mounting or clamping required
- System easily lifts straight up and down to minimize intrusion into the workspace
- Ships fully assembled – no tool adjustments needed – making it easy to retrofit existing spaces

WorkFit-T: BLACK 33-397-085
WHITE 33-397-062
WorkFit-TL: BLACK 33-406-085
WHITE 33-406-062

WorkFit-T/-TL arrives fully assembled and sits right on top of virtually any surface; it easily moves vertically 15” (38 cm) to provide sit-stand comfort for a broad range of users

The science behind the need to stand

The American Medical Association (AMA) agrees that sitting for extended periods of time can be bad for personal health. Their newly adopted policy recommends business organizations offer sitting alternatives, including standing desks.

A recent study published by the CDC (Centers for Disease Control) indicates adjustable sit-to-stand products are an effective solution for reducing prolonged sitting. Sit or stand, instantly, while remaining effectively engaged with your computer.

A 2010 University of Queensland, Australia study found that even when adults meet physical activity guidelines, sitting for prolonged periods can compromise metabolic health.

Customer service and product support that’s second to none

Expect a superior customer experience when you choose Ergotron. Our quality products are backed by specially trained support professionals and optional extended service programs that protect your investment and optimize your on-going product performance.

Customer care includes:

800# support line
Live 24/7 support in English; support during country hours in English, Spanish, French, Dutch, Italian, Russian, German, Greek, Mandarin and Japanese

Chat and email support
Our specialists connect with you real-time via live chat and email

Technical support
Rigorously trained technicians work with you to troubleshoot product and installation issues, manage service contracts, handle dispatching and answer/resolve warranty questions and issues

Sales support for resellers
Our field service group supports regional territory sales, and also participate in customer events with TESS (Ergotron’s Traveling Equipment Solutions Showroom)

Extended Global Service Programs protect your investment and ensure optimal product performance
A wide range of extended Global Service Programs are available to provide additional support and benefits:

Site readiness
Fast, efficient equipment installation and integration
Certified technicians conduct and manage every phase of product installation (including hardware integration, adjustments and computer installation with cable management)

Preventive maintenance and extended warranties
Optimal product performance for increased uptime

Improved asset management
Lower total cost of ownership; extended product life

Enhanced in-house product expertise
Training and transfer of technical knowledge to your internal staff

Equipment audit and health assessment
Receive an accurate inventory and health assessment of all deployed Ergotron equipment and assets.

Next-business-day (NBD) service contracts
Receive NBD service from our network of certified providers to minimize equipment downtime. Various contract levels are available to meet your unique needs: Bronze, Silver, Silver+, Gold and Platinum

Annual contracts and planned services
Options range from a single preventive maintenance visit to a 5-year complete service contract

Product recycling
Ergotron encourages environmental responsibility by offering a recycling program for our (and even our competitors’) products

100% satisfaction – guaranteed!
